

JEFF MUNN

I believe Lake Ward is unique. The area has a mixture of residential, rural and regional parks and has different needs to the remainder of the City.

I have been an Armadale councillor for 29 years and have seen numerous changes. There are many challenges for our City and I have a proven record of resolving residents' problems. Within tight financial restraints, we need to rejuvenate the older areas to match the facilities the new areas are receiving, improve security and provide an enclosed swimming pool.

My wife and I have been involved in community activities for over 38 years. I am a Civil Marriage Celebrant, a JP and am currently Deputy Mayor. I have served on all Council committees, represented Council on environmental State Boards and served on local community committees. When re-elected, I will continue to support the special needs of our Ward with determination and energy.
