## Tabled Items

Nil.

## Decision Type

$\square$ Legislative

Executive
Quasi-judicial

The decision relates to general local government legislative functions such as adopting/changing local laws, town planning schemes, rates exemptions, City policies and delegations etc.
The decision relates to the direction setting and oversight role of Council.
The decision directly affects a person's rights or interests and requires Councillors at the time of making the decision to adhere to the principles of natural justice.

## Officer Interest Declaration

Nil.

## Strategic Implications

4. Leadership

### 4.3 Financial Sustainability

4.3.2 Undertake active financial management to ensure that the annual budget is achieved and any variances are promptly identified and addressed.

## Legal Implications

Section 6.10 (d) of the Local Government Act 1995 refers, ie.

### 6.10 Financial management regulations

Regulations may provide for -
(d) the general management of, and the authorisation of payments out of -
(i) the municipal fund; and
(ii) the trust fund,
of a local government.
Regulation 13(1), (3) \& (4) of the Local Government (Financial Management) Regulations 1996 refers, ie.
13. Lists of Accounts
(1) If the local government has delegated to the CEO the exercise of its power to make payments from the municipal fund or the trust fund, a list of accounts paid by the CEO is to be prepared each month showing for each account paid since the last such list was prepared -
(a) the payee's name;
(b) the amount of the payment;
(c) the date of the payment; and
(d) sufficient information to identify the transaction.
(3) A list prepared under subregulation (1) is to be -
(a) presented to the council at the next ordinary meeting of the council after the list is prepared; and
(b) recorded in the minutes of that meeting.
(4) After the list referred to in subregulation (1) has been prepared for a month the total of all other outstanding accounts is to be calculated and a statement of that amount is to be presented to the council at the meeting referred to in subregulation (3)(a).

## Council Policy/Local Law Implications

Nil.

## Budget/Financial Implications

All accounts paid have been duly incurred and authorised for payment as per approved purchasing and payment procedures.

## Consultation

Nil.

## BACKGROUND

Pursuant to Section 5.42 of the Local Government Act 1995 (Delegation of some powers and duties to CEO), Council has resolved to delegate to the CEO (Delegation Payment from Municipal and Trust Funds refers) the exercise of its powers to make payments from the municipal and trust funds.

## COMMENT

The List of Accounts paid for the period 1 October to 31 October 2022 is presented as an attachment to this report as well as the credit card statements for October 2022.

## RECOMMEND

That Council note the List of Accounts paid as presented in the attachment to this report and summarised as follows:

## Municipal Fund

Accounts paid totaling \$12,118,570.73 on transactions 2286 to $3191 \&$ Payrolls dated 2 October, 16 October and 30 October.

## Credit Card

Accounts Paid totalling \$8,752.62 for the period ended October 2022.

## ATTACHMENTS

1.ㅍ Monthly Cheque and Credit Card Report - October 2022

## Strategic Implications

4. Leadership
4.3 Financial Sustainability
4.3.2 Undertake active financial management to ensure that the annual budget is achieved and any variances are promptly identified and addressed.

## Legal Implications

Local Government Act 1995 - Part 6 - Division 3 - Reporting on Activities and Finance Local Government (Financial Management) Regulations - Part 4 - Financial Reports.

## Local Government Act 1995 - s.6.11 Reserve accounts

(1) Subject to subsection (5), where a local government wishes to set aside money for use for a purpose in a future financial year, it is to establish and maintain a reserve account for each such purpose.
(2) Subject to subsection (3), before a local government -
(a) changes* the purpose of a reserve account; or
(b) uses* the money in a reserve account for another purpose, it must give one month's local public notice of the proposed change of purpose or proposed use.

* Absolute majority required.
(3) A local government is not required to give local public notice under subsection (2) -
(a) where the change of purpose or of proposed use of money has been disclosed in the annual budget of the local government for that financial year; or
(b) in such other circumstances as are prescribed.
(4) A change of purpose of, or use of money in, a reserve account is to be disclosed in the annual financial report for the year in which the change occurs.
(5) Regulations may prescribe the circumstances and the manner in which a local government may set aside money for use for a purpose in a future financial year without the requirement to establish and maintain a reserve account

## Council Policy/Local Law Implications

Nil.

## Budget/Financial Implications

The Statement of Financial Activity, as presented, refers and explains.

## Consultation

Nil.

## BACKGROUND

A local government is required to prepare a statement of financial activity reporting on the revenue and expenditure as set out in the annual budget for that month. The details in the statement are those as prescribed and the statement is to be reported to Council.

## COMMENT

Presented as an attachment this month, is the fourth monthly financial statement (presented in nature and type format) prepared from information posted in the OneCouncil system following the "go live" for Phase One on July 1. Work is continuing on refining and improving the presentation and information in the detailed notes.

For the purposes of reporting other material variances from the Statement of Financial Activity, the following indicators, as resolved by Council, have been applied.

## Revenue

- Material variances are identified where, for the period being reported, the actual varies to the budget by an amount of $(+)$ or (-) \$100,000 and in these instances an explanatory comment has been provided.

## Expense

- Material variances are identified where, for the period being reported, the actual varies to the budget by an amount of (+) or (-) \$100,000 and in these instances an explanatory comment has been provided.

For the purposes of explaining each Material Variance, a three part approach has been taken. The parts are:

## 1. Period Variation

Relates specifically to the value of the Variance between the Budget and Actual figures for the period of the report.
2. Primary Reason

Explains the primary reasons for the period Variance. As the report is aimed at a higher level analysis, minor contributing factors are not reported.
3. Budget Impact

Forecasts the likely dollar impact on the Annual Budget position. It is important to note that figures in this part are 'indicative only' at the time of reporting, for circumstances may subsequently change.

At the 27 June 2022 Ordinary Meeting, Council adopted the Budget Variations Process Map which was the same as that adopted for FY22. Budget variations are presented to Council for authorisation by 'Absolute Majority' in circumstances where a forecast variation requires a movement from:

- Operating to Capital
- Capital to Capital over $\$ 40,000$
- Capital to Operating
- Operating to Operating for amounts greater than 5\% or $\$ 80,000$ (whichever is greater).

## DETAILS

Presented as an attachment is the Monthly Statement of Financial Activity for the four (4) month period ended 31 October 2022.

## Capital Carry Forward Program Update

Included in the monthly reports is the status of the capital carry forward program as at the end of October 2022 to tie in with the monthly financials report. This is a historical perspective and the Executive Leadership Team regularly review the current status.

The information provided below has been prepared in the format previously reported and is broken up into the different phases as listed.

## Project Delivery Phases

The capital projects in the table below have been categorised into the project phases that each project is in.

The phases are:

1. Planning phase - This phase entails establishing the project team and resources, confirming the project business case, and undertaking the project precedent prior to initiating the project. This may include agency approvals, Council approval, business case modelling and concept design, and in some cases land acquisition and utility service provider advice.
2. Design phase - This phase as it suggests includes the detailed design and specifications for the project, the full project costings, and regulatory approvals.
3. Procurement \& Contracts phase - This phase establishes the contracts and resources required to construct and deliver the project and confirms the stages of construction.
4. Construction phase - Effectively the project build and test.
5. Project completion phase - This phase involves acceptance and handover/practical completion and any peripheral works to complete the project which do not form part of the main project.

## Major Projects Review

Council, in November (CEO1/11/22 and CS54/11/22) approved amendments to the FY23 project values of six carry forward projects listed in the tables above. The carry forward amount in the table has now been listed as the amended FY23 annual budget amount and the original project cost is now the amended total project cost based on the resolution.

These items are the Roleystone Karragullen Volunteer Bush Fire Brigade Station, Champion Lakes Resource Centre, John Dunn Pavilion, Piara Waters Library, Morgan Park Pavilion and the Forrestdale Hub Hall and Pavilion.

## Monthly Financials

This month there have been three presentation changes to the report. The Explanation of Material Variances page previously provided at Note 10 has been moved to Note 1 directly after the Statement of Financial Activity by Nature or Type.

Two new notes have been added - Note 5 - Other Current Assets and Note 8 - Lease Liabilities. The report continues to be worked on and refined in line with the information that is now available in the One Council system and further enhancements will be made over the coming months.

## Rates Debtors

The rates debt data for $\$ 250$ and over (excluding pensioners) as produced by the system is provided below. Further efforts into collecting the 3 year plus category is underway and each of these debtors will be contacted over the next few months and individual collection actions based on the type and size of the debt will be determined.

| Oct-22 |  | Non Pensioner |  |  |  |  |  |  |  |  |  |

## Sundry Debtors

Significantly more time is now being spent on following up the collection of sundry debtors as the total due is higher than normal. In particular, Finance is working collaboratively with the Waste Management team to get the commercial tipping fees due back to a normal trading level. There are also large DCP invoices that are due and payable and these are being followed up with Development Services. This area will be a priority focus over the coming months and further updates to Council will be provided during that time.

## OneCouncil Implementation

The City successfully implemented the first phase of the OneCouncil ERP project on $1^{\text {st }}$ July this year. Phase one included Human Resources \& Payroll, Supply Chain, Assets and Finance. As reported to Council, asset migration has continued in the second half of the year, due to the size and complexity of asset data. The migration was recently completed in November. Revenue systems currently remain in the Authority system and will be implemented as part of Phase Two. These systems include rates, sundry debtors and cash receipting.

At this point in time, and midway through the OneCouncil implementation, the City's financial information is being captured in two systems, Authority and OneCouncil. The revenue information is transferred to the OneCouncil system for reporting via an automated bridging process.

The asset data migration and automated bridging process has required estimates to be made in the financial statements for the purpose of producing the monthly financial report, for items such as depreciation, asset disposals, and some receivables. Further, there is a configuration change required to the bridging process, in order for the Finance Team to perform reconciliations. Therefore, these Statements represent the most accurate information available, but maybe subject to change. It is expected that the Statements and Notes will be fully automated for the statements to be presented in February 2023.

## RECOMMEND

That Council pursuant to Regulation 34 of the Local Government (Financial Management) Regulations 1996 (Financial Activity Statement Report) accept the Statement of Financial Activity for the four (4) month period ended 31 October 2022; and:
i. Note that there are reportable actual to budget material variances for the period ii. Note the $\$ \mathbf{2 5 6 . 8 9}$ small rates debts written off under Primary Delegation 1.0 and Secondary Delegation CORPS 1.1.

## In Brief:

- The Long Term Financial Plan (LTFP) FY24 to FY43 has been developed and was introduced to Councillors in a Workshop in early November 2022.
- The LTFP incorporates and builds on the same principles and outputs as the Four Year Budgets previously adopted by Council.
- The current draft of the LTFP sets the base line version, which will continue to be a live document throughout the year as inputs change and get updated via the Annual Budget process.
- The base line will allow the development and analysis of various scenarios.
- Recommend that Council endorse the baseline LTFP for the period 2024 to 2043 as a reference document for further financial planning activities.

## Strategic Implications

Strategic leadership and effective management
4.1.2 Develop and maintain a comprehensive suite of strategies and plans to guide the City's delivery of infrastructure and services to the community.
4.3.1 Undertake strategic financial planning to ensure that appropriate services are effectively delivered, assets are efficiently managed and renewed, and funding strategies are equitable and responsible.

## Legal Implications

Section 6.2 of the Local Government Act 1995 (Local Government to prepare an annual budget) and Regulation 19DA of the Local Government (Administration) Regulations 1996 (Corporate Business Plan requirements)

## Section 6.2 Local government to prepare annual budget

(1) During the period from 1 June in a financial year to 31 August in the next financial year, or such extended time as the Minister allows, each local government is to prepare and adopt*, in the form and manner prescribed, a budget for its municipal fund for the financial year ending on the 30 June next following that 31 August.

* Absolute majority required.
(2) In the preparation of the annual budget the local government is to have regard to the contents of the plan for the future of the district made in accordance with section 5.56 and to prepare a detailed estimate for the current year of -
(a) the expenditure by the local government; and
(b) the revenue and income, independent of general rates, of the local government; and
(c) the amount required to make up the deficiency, if any, shown by comparing the estimated expenditure with the estimated revenue and income.

## 19DA. Corporate business plans, requirements for (Act s. 5.56)

(1) A local government is to ensure that a corporate business plan is made for its district in accordance with this regulation in respect of each financial year after the financial year ending 30 June 2013.
(2) A corporate business plan for a district is to cover the period specified in the plan, which is to be at least 4 financial years.
(3) A corporate business plan for a district is to -
(a) set out, consistently with any relevant priorities set out in the strategic community plan for the district, a local government's priorities for dealing with the objectives and aspirations of the community in the district; and
(b) govern a local government's internal business planning by expressing a local government's priorities by reference to operations that are within the capacity of the local government's resources; and
(c) develop and integrate matters relating to resources, including asset management, workforce planning and long-term financial planning.
(4) A local government is to review the current corporate business plan for its district every year.
(5) A local government may modify a corporate business plan, including extending the period the plan is made in respect of and modifying the plan if required because of modification of the local government's strategic community plan.
(6) A council is to consider a corporate business plan, or modifications of such a plan, submitted to it and is to determine* whether or not to adopt the plan or the modifications.
*Absolute majority required.

## Council Policy/Local Law Implications

Nil.

## Budget/Financial Implications

The output tables provided in this Report are a snapshot of what the model produces and provide an indication annually of the City's financial position and overall budget position based on the current assumptions in use.

## Consultation

- Councillors
- Executive Leadership Team
- Operational Management Team.

## BACKGROUND

The Long Term Financial Plan (LTFP) forms part of the Council's Integrated Planning and Reporting Framework and is fundamental for evaluating the impacts of service delivery and capital investment choices on the financial sustainability of the City. Given the importance, Council has set a Key Performance Indicator to review the Long Term Financial Plan (LTFP).

The new LTFP model has been developed in conjunction with the West Australian Treasury Corporation, with similar functionality and insights to the Four Year Budget. The perspectives are now able to be extrapolated out over a twenty year period based on a series of key assumptions. The LTFP also produces the Statutory Statements and Ratios for the 20 year period (see attached).

The LTFP has utilised information from other informing Strategies and Plans, such as the Community Infrastructure Plan and Asset Management Plans and will enable the impact of those inputs to be assessed over the medium to long term.

Scenarios will be developed over the coming month for Council to review and evaluate the impacts of strategic choices around the timing and level of investment in strategic initiatives and projects.

The LTFP and the Scenarios will inform the Annual Budget as part of the financial planning process annually, and will continue to be updated with changes to assumptions as and when they are required throughout the year.

## DETAILS OF PROPOSAL

## Critical issues for the City of Armadale

Previous financial planning activities have identified a number of critical issues for Councillors to consider. These issues revolve around:

1. Addressing the deficit operating position over the medium to long term, to realise a balanced or surplus operating position
2. Establishing the desired rating effort, level of rates and user pays fees and charges, cognisant of the principles of affordability and beneficiary pays
3. Confirming the range, scope and cost of services, which in Council's view, meets the expectations of the community
4. Determining the timing and application of capital investment, to strike a balance between asset renewal and the provision of new assets. This builds capacity to renew assets when they reach the end of their useful life and provide new assets to meet community demand;
5. Addressing the commitment to asset renewal in the medium to long term to ensure sufficient future capacity and ensure intergenerational equity
6. Establish reasonable limitations on future borrowings
7. Intergenerational equity in the context of planned transfers to reserves for future projects.

More recently, the issues have centred on the short term supply chain issues and escalating construction costs.

## Financial Strategies adopted in the latest version of the Four Year Budget/LTFP

Against a backdrop of financial and economic indicators, such as the Local Government Cost Index, Councillors provided guidance on a preferred set of assumptions and financial strategies which were adopted in April and June this year, through the financial planning, four-year budget and annual budget process. The strategies aim to consolidate and improve the financial position of the City, and to ensure capacity to deliver important services to the community in the future.

The strategies for the initial four years that are incorporated in the draft LTFP:

1. Growth - Adopt Moderate growth in rateable property growth at 750, then 750,700,700 respectively over the years FY23 to FY26 @ $\$ 1,450 /$ residential property
2. Rates Index - Apply an index of $4.0 \%$, then $3.1 \%, 2.7 \%, 2.7 \%$ respectively over the years FY23 to FY26 to General Rates
3. Fees \& Charges Index - Apply an index of $3.5 \%$ then $2.6 \%, 2.2 \%, 2.2 \%$ respectively over the years FY23 to FY26 to Fees \& Charges, including Waste Fees
4. Employee Cost Index - Apply an index of $1.5 \%$ then $2.25 \%, 2.25 \%, 2.5 \%$ respectively over the years FY23 to FY26 to employee costs
5. Materials \& Contracts Index - Apply an index of $3.5 \%$ then $2.6 \%, 2.2 \%, 2.2 \%$ respectively over the years FY23 to FY26 to Materials \& Contractors; Facilities Maintenance, Utilities \& Insurance
6. Levels of Service - Maintain the current levels of service
7. Strategy - Include the adopted ICT strategy as per CS/3/2/22
8. Community Infrastructure Plan - Defer Piara West Sports Field \& Pavilion \$421k to outside of the 4YB period (previously FY26)
9. Capital Investment Program - Split the capital projects of Anstey Keane Community Facilities and Piara Waters Sports Facilities by keeping the oval component in this 4YB and moving the pavilion components to outside of the 4 YB period
10. Capital Investment Program - Apply an index of $1.75 \%$ then $1.75 \%, 2 \%, 2 \%$ respectively over the years FY23 to FY26 to the Asset Renewal commitment
11. Capital Investment Program - Apply an index of $3.5 \%$ then $2.6 \%, 2.2 \%, 2.2 \%$ respectively over the years FY23 to FY26 to the municipal funds allocated for capital investment new and upgrade
12. Gifted Assets - Apply an estimate of $\$ 40,000$ per new lot for rateable property growth for the gifted assets
13. Borrowings and Debt Servicing - No change to existing strategy, i.e. \$50M, cap on borrowings unless additional revenue streams, or cost savings are identified to service the additional debt as part of the investment business case
14. Cash Reserve Transfers - No allocation of $\$ 0.5 \mathrm{M}$ to the Future Projects Reserve due to the $\$ 1 \mathrm{M}$ allocated in FY22
15. Proposals - determine the funding allocation to proposals once external project funding sources confirmed.

## Key Assumptions Used in the LTFP

Projecting from year 5 to year 20 (FY27 to FY46), a number of assumptions must be made to establish a base position. The table below outlines the key assumptions that underpin the draft LTFP, which are set in five-year blocks.

## KEY ASSUMPTIONS

New Rateable Residential Property Per Annum
New Rateable Commercial Property Per Annum
Revenue - Growth (patronage) in Fees \& Charges
Revenue - Growth (population/households) in other Revenue
Revenue - Indexing (CPI)
Expenses - Growth (population/households/area)
Expense - Growth resulting from Capital Projects
Expense - Indexing (CPI)

| FY27 to FY31 | FY32 toFY36 | FY37 to FY41 | FY42 to FY46 |
| ---: | ---: | ---: | ---: |
| 500 | 500 | 500 | 500 |
| 15 | 15 | 15 | 15 |
| $1.00 \%$ | $1.00 \%$ | $1.00 \%$ | $1.00 \%$ |
| $1.00 \%$ | $1.00 \%$ | $1.00 \%$ | $1.00 \%$ |
| $3.00 \%$ | $3.00 \%$ | $3.00 \%$ | $3.00 \%$ |
| $3.00 \%$ | $4.00 \%$ | $5.00 \%$ | $5.00 \%$ |
| $4.00 \%$ | $4.00 \%$ | $5.00 \%$ | $5.00 \%$ |
| $3.00 \%$ | $3.00 \%$ | $3.00 \%$ | $3.00 \%$ |

Asset Renewal Transfer Top Up
Gifted Assets per new lot
Interest earnings
New Borrowings Interest Rate
Borrowings Threshold

| $6,000,000$ | $6,500,000$ | $7,000,000$ | $7,500,000$ |
| ---: | ---: | ---: | ---: |
| $\$ 40,000$ | $\$ 40,000$ | $\$ 40,000$ | $\$ 40,000$ |
| $1.0 \%$ | $1.0 \%$ | $1.0 \%$ | $1.0 \%$ |
| $4.5 \%$ | $4.5 \%$ | $4.5 \%$ | $4.5 \%$ |
| $60.00 \%$ | $60.00 \%$ | $60.00 \%$ | $60.00 \%$ |

The useful life of assets provides a rate of depreciation, which in turn effect the operating position. The useful life and depreciation rate assumptions used in the plan are:

| Asset Group | Asset Class | Useful life <br> (years) | Depreciation <br> rate (\%) |
| :--- | :--- | ---: | ---: |
| Property, plant and equipment | Buildings | 40 | $2.50 \%$ |
| Property, plant and equipment | Furniture and Equipment | 11 | $9.09 \%$ |
| Property, plant and equipment | Plant \& Machinery | 5 | $20.00 \%$ |
| Infrastructure | Roads | 75 | $1.33 \%$ |
| Infrastructure | Drainage | 125 | $0.80 \%$ |
| Infrastructure | Pathways | 50 | $2.00 \%$ |
| Infrastructure | Parks and Reserves | 80 | $1.25 \%$ |
| Infrastructure | Waste | 30 | $3.33 \%$ |
| Other | Landfill Cell | 5 | $20.00 \%$ |
| Other | Rehabilitation Asset | 3 | $33.33 \%$ |

One of the main assumptions is the growth from new rateable properties per annum, set at 500 per year. This is quite a conservative estimate, resulting in 10,000 new rateable properties over 20 years, the majority from the Wungong development area. Growth in other revenue and expenses is also conservative.

Indexing of costs and revenues denoted by "Revenue - Indexing (CPI)" and "Expense Indexing (CPI)" has been set at $3 \%$, within the Reserve Bank's target range.

The Asset Renewal commitment is established by setting a regular transfer to the asset renewal reserve, stepped up every five years.

The borrowings threshold is still set at $60 \%$ of operating revenue as per the threshold currently set by Council.

All of the key assumptions will be reviewed as part of the next iteration of the LTFP to be completed following the next Annual Budget processing commencing in February 2023.

## The Operating Position

One of the most critical financial performance indicators for Local Government is its operating position, measured by the Operating Surplus ratio. The ratio measures whether underlying long-run revenue (net of capital related revenue such as grants for capital works) is expected to exceed underlying long-run operating expenses (including asset depreciation). Ideally, an operating surplus allows Council's to invest in new community assets and manage intergenerational equity through loan payments or cash set aside in reserves for future use.

The LTFP FY24-43 shows operating surpluses commencing in 2032. The Capital Investment program has a significant bearing on the operating position, and a greater investment in capital projects would push out the transition year that the operating position turns from deficit into surplus. The overall growth assumptions in revenue will be tested further during the upcoming annual budget process. Adjustments are made to reveal the underlying operating position due to the impact of the OneCouncil project, funded by a loan and the Smart LED Street Lighting project, also funded by a loan. The latter project results in a $\$ 1 \mathrm{M}$ reduction in operating costs once fully implemented.

| TABLE 2.2-Operating Position | Budget Y1 | LTFP Y1 | LTFP Y2 | LTFP Y3 | LTFP Y4 | LTFP Y5 | LTFP Y6 | LTFP Y7 | LTFP Y8 | LTFP Y9 | LTFP Y10 |

## The Overall Budget Position

The overall budget position is currently unbalanced for each year. It most years, the extent of the imbalance is not material - around $1 \%$ of the total budget. However there are some years where flattening the municipal fund spend on the capital investment program and the reserve transfers will need to occur. For example, in 2038 and 2039 there is a $\$ 6.9 \mathrm{M}$ budget deficit and budget surplus respectively. Flattening the program over the two years would resolve the issue.

The overall budget position is generally positive, red highlighting the years where a budget deficit occurs.

## Asset Renewal, Upgrade and New Investment

Initial observations from the 20 year capital program note an increasing actual spend on asset renewal as the City's assets age. This is predictable from the asset modelling and 50 year Infrastructure Funding Renewal Strategy (IFRS) Councillors will be familiar with.

Investment in upgraded and new assets drops off in the later years of the plan, reflective of the shorter Community Infrastructure Plan time horizon (it ends in 2036) and other projects yet to be considered, modelled and included, particularly from the City Centre Investment Framework. Peak years in FY25, FY28 and FY29 require further analysis on program and delivery capacity. Significant road, building and open space projects create the higher investment, including Eighth Road, Forrestdale and Anstey-Keane POS/Community buildings and the Regional Recreation Reserve.

| TABLE 7 - Capital Investment by Type | Budget Y1 | LTFP Y1 | LTFP Y2 | LTFP Y3 | LTFP Y4 | LTFP Y5 | LTFP Y6 | LTFP Y7 | LTFP Y8 | LTFP Y9 | LTFP Y10 |

## Capital Investment by Class of Asset

The same perspective by asset class reveals the capital investment in different assets. The nature of Building assets requires intermittent injection of renewal projects to maintain major structural components of buildings - roof, mechanical structures etc. and this is apparent in the chart below.

| TABLE 9 - Capital Investment by Asset Class | Budget Y1 | LTFP Y1 | LTFP Y2 | LTFP Y3 | LTFP Y4 | LTFP Y5 | LTFP Y6 | LTFP Y7 | LTFP Y8 | LTFP Y9 | LTFP Y10 |

One of the issues that is currently being considered is capacity to deliver the indicative program each year. There are some peak years - 2029 for example, where the program is perhaps beyond the current capacity. These issues can be resolved with a smoothing out of the program. The work on this will occur during the upcoming annual budget process.

## Funding the Capital Investment Program

Funding the capital program requires multiple sources. Of interest is the Municipal funds allocated to the Capital program each year. In the first ten years of the plan, the investment is around $\$ 11 \mathrm{M}$, increasing to around $\$ 16.5 \mathrm{M}$ in the second ten year period. This is reflective of a higher spend in asset renewal, and conversely transfers to the asset renewal reserve will drop off compared to current levels.

## $\underline{\text { Asset Renewal }}$

The LTFP Model has allocated $\$ 6 \mathrm{M}, \$ 6.5 \mathrm{M}, \$ 7.0 \mathrm{M}$ and $\$ 7.5 \mathrm{M}$ transfer to the asset renewal reserve for each of the five year blocks from FY27 onwards. Also of note from the table below is the increased capital investment in asset renewal (our actual expenditure on assets) as assets age. Further work will be undertaken to model this in conjunction with the IFRS. There are peak years of Asset Renewal investment based on the fixed transfers mentioned above. Year 15 (2038) is $\$ 38 \mathrm{M}$ for example. Smoothing out the renewal capital program could eliminate these peaks if desirable, however the long term perspective ought to retain a focus on the IRFS and the reserve fund balance. The section on the City's cash reserves illustrates this perspective further.

## Asset Renewal Effort

Consistent with aging assets, the tables below show an increasing actual spend against the annual depreciation (wear and tear) of assets. It increase from around $65 \%$ of depreciation expense presently to around $+90 \%$ in the second half of the LTFP.

| TABLE 8.2 - Asset Renewal Effort | Budget Y1 | LTFP Y1 | LTFP Y2 | LTFP Y3 | LTFP Y4 | LTFP Y5 | LTFP Y6 | LTFP Y7 | LTFP Y8 | LTFP Y9 | LTFP Y10 |

## Rates

Rate revenue including growth from new rateable properties averages around $\$ 3 \mathrm{M}$ to $\$ 4 \mathrm{M}$ increase in the first half of the LTFP and $\$ 4.5 \mathrm{M}$ to $\$ 5.5 \mathrm{M}$ in the second half. The indexing applied is $3 \%$ for all of the years from FY27 onwards.

## Rateable Property Growth

The LTFP is currently using a key assumption of 500 new rateable residential properties per annum and 15 new rateable commercial properties from FY27 onwards. This could be considered conservative based on recent years but could also be considered excessive in downturn years in the event they occur in the outer years. For modelling purposes the same growth numbers per annum have been used but will be reviewed during the annual budget process.

| TABLE 17-Rate Revenue | Budget Y1 | LTFP Y1 | LTFP Y2 | LTFP Y3 | LTFP Y4 | LTFP Y5 | LTFP Y6 | LTFP Y7 | LTFP Y8 | LTFP Y9 | LTFP Y10 |

## Growth in fees, charges and expenses

Growth in the model has been indexed from FY27 onwards as there is no current data to provide expected outcomes in this area year by year. Growth will continue to be a focus in the first four years and during the annual budget process where the latest available data will be input into the model.

In the table below, over the term, the cumulative growth adds $\$ 4.7 \mathrm{M}$ to the cash budget over the term, which then turns into a deficit to the operating position of $\$ 4.3 \mathrm{M}$ once the non-cash provision of deprecation is factored in. Refer year 20, (2043) below for the cumulative impact.

| TABLE 4.2-Cummulative Growth | Budget Y1 | LTFP Y1 | LTFP Y2 | LTFP Y3 | LTFP Y4 | LTFP Y5 | LTFP Y6 | LTFP Y7 | LTFP Y8 | LTFP Y9 | LTFP Y10 |

## Borrowings

The model currently assumes that there are no new loans following the capital program in 2025. Therefore the outcome currently shown is that the balance of borrowings is steadily reduced per annum with zero borrowings projected to occur in 2041. This of course is unlikely, but it highlights that Council is yet to consider and decide on future capital investment, funded from borrowings in the latter part of the plan.

| TABLE 12-Borrowings | Budget Y1 | LTFP Y1 | LTFP Y2 | LTFP Y3 | LTFP Y4 | LTFP Y5 | LTFP Y6 | LTFP Y7 | LTFP Y8 | LTFP Y9 | LTFP Y10 |

## Cash Reserves

Cash reserves accumulate in the base LTFP, but reflect further planning that needs to occur around the accumulation and application of cash reserves.

| TABLE 14 - Reserve Balances - EOFY | Budget Y1 | LTFP Y1 | LTFP Y2 | LTFP Y3 | LTFP Y4 | LTFP Y5 | LTFP Y6 | LTFP Y7 | LTFP Y8 | LTFP Y9 | LTFP Y10 |

## Asset Renewal cash reserve

The Asset Renewal reserve accumulates generally in accordance with the IRFS. This is premised on the fixed commitment discussed earlier in this report. Of interest in the accumulation to $\$ 97 \mathrm{M}$ in year 20 (2043) of the plan. Contrast this with the 50 -year IRFS and Reserve model, and the indication is that the City is on track to maintain its assets to the agreed level of service, noting the predicted balance required in 2045 in the charts below.

## DCP cash reserves

The base LTFP is yet to factor in Wungong DCP developer contributions and DCP expenditures. As a consequence, the DCP reserve does not accumulate over the plan. This aspect will be adjusted in due course. Notwithstanding, the asset base does grow through gifted assets from future development in the Wungong area.

## Future Projects cash reserves

The Future Projects reserve accumulates through an annual allocation of $\$ 0.5 \mathrm{M}$ per annum, to $\$ 30 \mathrm{M}$ over the term. It remains for the Council to determine its preferences and priorities in terms of the allocation of funds, which will largely centre around the City Centre Investment Framework outcomes.

## Future Projects Waste Services cash reserves

The Waste Reserve is utilised for infrastructure maintenance but accumulates to enable the full rehabilitation of the site once closed. The rehabilitation itself, estimated in the Waste Strategy at around $\$ 20 \mathrm{M}$ is not yet factored in, pending review of the Strategy. Hence the accumulation of the reserve.

## Further work on the baseline LTFP

The LTFP is considered a base line document and has a number of items that will be reviewed during the budget process. These include:

1. Reconciled annual CAPEX program matched to delivery capabilities
2. Reviewing funding of the CAPEX program, particular municipal funding of new works.
3. Assessment of the forecast supply and cost factors in the economy
4. Investment in City Centre major projects.

## Process

Following the base LTFP endorsement this December, the Financial Planning program moves into scenario development ahead of a March/April workshop. The Annual Budget and Four Year Budget Outputs will commence review in February 2023. Further workshops on rates, capital investment and operational budgets will follow, leading to the adoption of the Annual Budget in July. This a month later than last year due to GRV Revaluation occurring next year.

## CONCLUSION

The base LTFP is presented to establish an initial position to model various scenarios and assumptions around growth, investment and strategy. In conjunction with other informing plans and strategies, it assists the Council with important decisions on resource allocation and investment, that ultimately deliver on the outcomes set out in the Strategic Community Plan.

The base LTFP:

- Indicates an improving operating position
- Illustrates capacity for investment in transformation projects
- Highlights that Council can leverage its borrowing capacity in the medium term
- Sets out a capital investment program that requires a minor review in terms of capacity to deliver
- Takes a conservative approach to growth.

## RECOMMEND

That Council endorse the baseline Long Term Financial Plan for the period 2024 to $\mathbf{2 0 4 3}$ for use in financial planning, including further modelling around assumptions, scenarios and strategy review.

## In Brief:

- This report presents the year end financial position for the financial year ending 30 June 2022, contrasted with the estimated position carried forward into the FY22/23 Annual Budget.
- The closing surplus, indicated by the Net Current Asset position is $\$ 16,029,223$. After allowing for project carried forwards, project loan funding, advance payment of Financial Assistance Grant, performance based Workers Compensation adjustment transfer to Reserve and the previously unallocated surplus from FY21, the remaining available surplus is $\mathbf{\$ 3 , 2 0 2 , 0 0 0}$.
- Recommend that the adopted FY22/23 Annual Budget be amended to record the budget surplus and Council determine the allocation of the surplus funds through a workshop and subsequent report.

## Tabled Items

Nil.

## Decision Type

$\square$ Legislative

Executive
$\square$ Quasi-judicial

The decision relates to general local government legislative functions such as adopting/changing local laws, town planning schemes, rates exemptions, City policies and delegations etc.

The decision relates to the direction setting and oversight role of Council.

The decision directly affects a person's rights or interests and requires Councillors at the time of making the decision to adhere to the principles of natural justice.

## Officer Interest Declaration

Nil.

## Strategic Implications

### 4.3 Financial Sustainability

4.3.2 Undertake active financial management to ensure that the annual budget is achieved and any variances are promptly identified and addressed.

## Legal Implications

Local Government Act 1995

### 6.8. Expenditure from municipal fund not included in annual budget

(1) A local government is not to incur expenditure from its municipal fund for an additional purpose except where the expenditure-
(b) is authorised in advance by resolution*
*Absolute majority required.
Local Government (Financial Management) Regulations 1996
30. Previous financial year figures to be shown for comparison
(1) In the annual budget-
(a) the income statement for the previous financial year; and
[(b) deleted]
(c) the rate setting statement for the previous financial year; and
(d) the information referred to in regulation $27(g), 27(i)(i), 27(j)$, $27(k)(i), 27(k)(i i)$ and $29(f)$ for the previous financial year, are to be prepared in a manner that clearly compares the estimates in the annual budget in respect of each statement or piece of information, as the case requires, with the equivalent financial results at 30 June of the previous financial year (comparative figures).
(2) If at the time of preparation of the annual budget a financial result referred to in subregulation (1) is not known, an estimate of that result may, if it is disclosed as an estimate, be included in the annual budget.
31. Net current assets at start of financial year to be shown
(1) The annual budget is to include the net current assets carried forward from the previous financial year.
(2) If at the time of preparation of the annual budget the net current assets is not known, an estimate of that figure may, if it is disclosed as an estimate, be included in the annual budget.

## Australian Accounting Standard (AASB)

AASB 1059 - Service Concession Arrangements.
An arrangement whereby a government or other public sector body contracts with a private operator to develop (or upgrade), operate and maintain the grantor's infrastructure assets such as roads, bridges, tunnels, airports, energy distribution networks, prisons or hospitals.

## Council Policy/Local Law Implications

Nil.

## Budget/Financial Implications

The Report Recommendation proposes amendments to the adopted 2022/23 Annual Budget (FY23) as a consequence of having confirmed the year end result for the 2021/22 financial year (FY22).

## Consultation

- Executive Leadership Team (ELT)
- Organisational Management Team (OMT).

## BACKGROUND

The closing surplus, represented by the Net Current Asset position is $\$ 16,029,223$. After allowing for carried forward funds for projects, the advanced payment of the Federal Assistance Grant (FAG), provision for Workers Compensation adjustment transfer to Reserve , the previously unallocated surplus from FY21 ( $\$ 2,273,673-$ CS70/11/21 $)^{1}$ and loan funds to be drawn down on projects in progress, the remaining available surplus for Council's discretion is $\mathbf{\$ 3 , 2 0 2 , 0 0 0}$.
Closing Surplus (Net Current Asset Position) ..... \$16,029,223
Less:

1. Projects Carry Forwards ..... -\$7,223,888
2. Financial Assistance Grant, Paid in Advance ..... -\$2,997,306
3. Performance based Workers Compensation Reserve transfer ..... -\$365,000
4. Previously Unallocated FY21 Surplus ..... -\$2,273,673
Plus Projects in Progress:
5. Roleystone Theatre - Loan Funds to be drawn down ..... \$38,848
6. One Council Project - Loan Funds unspent ..... -\$6,204
Year End Surplus ..... \$3,202,000
[^1]
## 1. Projects Carried Forward Items

The following items were considered separate to the formulation of the Annual Budget for 2022/23 and were adopted by Council on 22 August (CS41/8/22).

Carry Forward budgets of $\$ 7.2 \mathrm{M}$ from the 2021/22 budget estimate comprised of:

| Property, Plant and Equipment | $\$ 453,020$ |
| :--- | :--- |
| Infrastructure Projects | $\$ 3,511,775$ |
| Business Recovery \& Dept. Services | $\$ 1,834,544$ |
| Project Planning | $\$ 483,893$ |
| Environmental Projects | $\$ 715,570$ |
| Community Projects | $\$ 225,086$ |
| TOTAL | $\mathbf{7 , 2 2 3 , 8 8 8}$ |

## 2. FY23 FAG paid in advance

Embedded in the closing surplus is an advance payment of the FY23 Financial Assistance Grant (FAG) paid by the Commonwealth Government of $\$ 2,997,306$. This was incorporated in the Annual Budget, and is deducted from the closing surplus when calculating the final budget surplus available for Council discretion.

## 3. Performance Based Workers Compensation Adjustment Transfer to Reserve

The City improved its management of health and safety risks, injury management and rehabilitation, which resulted in payments below the workers compensation threshold. This provides surplus funds to transfer to the Workers Compensation Reserve. Note that in years of good performance, the rate paid is $1.12 \%$ compared to a "call up" rate of $(+) 1.45 \%$ in years where claims exceed the threshold. ${ }^{2}$

## 4. Previously Unallocated FY21 Surplus

At the end of June 30, 2022, the FY21 surplus of $\$ 2,273,673$ was unallocated and included in the calculation of the net current asset position of the City.

Council decided to transfer these funds to the Future Projects Reserve in the FY23 financial year and made provision in the FY23 Annual Budget to do so. The intent was to hold the funds in reserve as contingency. Therefore, at 30 June 22 the FY21 funds need to be accounted for.

As a footnote, in November 2022, Council resolved to apply these surplus funds in part to assist with cost escalations and grant funding shortfalls for major projects. Reports (CEO1/11/22) and (CS54/11/22) refer.

[^2]
## 5.Projects in Progress - Loan Funds to be drawn down and remain unspent

Two, in progress projects are funded by loan funds and span multiple years.
These projects are:

- Roleystone Theatre - Loan Funds to be drawn down $\$ 38,848$; and
- One Council Project - Loan Funds unspent \$6,204.

From a cash flow point of view, the Roleystone Theatre loan funds will be drawn down in FY23, meaning that the Municipal funds has financed the FY22 expenditure until such time as the loan funds are drawn down.

As such, the surplus is increased to recognize the component of the projects expended to 30 June, with loan funding due in the FY23 year.

The One Council Project Loan Funds unspent has the reverse effect where the surplus is decreased due to the funds drawn down being received but remaining unspent.

## ANALYSIS

The variance to the amended budget is made up of a combination of increases or decreases to the operating budget along with the finalisation of asset capitalisations and changes to accounting treatments. A brief overview follows.

## Notes:

a. Higher Operating Revenues were achieved in Building \& Planning Services and Waste Services than budgeted. In contrast, interest earnings were below the forecast estimates due to continuing lower interest rates. The City also received an advanced receipt of the Financial Assistance Grant in FY21/22, which had the effect of increasing grant revenues for FY22.
b. Lower Operating Expenditures were achieved mainly from savings in Employee Costs including salaries and wages due to vacancies, the training budget, various and operational costs in Waste Services and operational budgets not being fully spent in Parks and Property Services. Supply issues affected in part the expenditure from these budgets.
c. Item C facilitates accounting adjustments to the Rate Setting Statement to account for non cash items such as depreciation, profit and loss on disposals of assets and changes in contractor liabilities (typically DCP's). These changes do not impact the budget surplus position, but they need to be accounted for when determining the surplus.
d. Investing activities reflect the City's capital investment program. In FY22, a high capital investment program coupled with supply issues resulted in a number of projects remaining in progress, in some cases leading to extension to completion dates. In conjunction, grant funding which matches the delivery program was also affected.
e. Financing activities refer to reserve transfers (both in and out), new borrowings and repayments of the loans. Similar to the above, reserve transfers and borrowings mirror the Capital Investment program delivery, hence the variation to budget. In most cases, projects have been carried forward with associated funding.

## Application of the Year-End Surplus

This report advises of a year-end surplus available for Council's discretion of \$3,202,000 and it is open to Council to consider the allocation of funds, in due course.

Previously the Council has set aside funds in the Future Projects Reserve if a budget surplus has resulted. This has built the Future Projects reserve fund over time to build capacity to deliver strategic projects such as City Centre Investment projects. More recently, surplus funds were set aside in the Future Projects reserve as contingency for funding and cost escalation uncertainties.

This report recommends that Council notes the FY22 surplus and considers the allocation of funds during financial planning and budgeting workshop which will be held over the next six months, before formally deciding on the matter. Importantly, the workshops will provide the opportunity to discuss:

- project opportunities
- financing opportunities
- addressing the challenges and risks that the City continues to face in delivering services and projects
- the current operating environment, with many issues directly or indirectly related to the shortage of labour and cost of living.

For the time being, Council may wish to transfer the funds to the future projects reserve. In doing so, it will be important to track and keep account of these separate funds, until Council makes a final decision. If Council is amenable to transfer the funds, the budget will require amending and the funds set aside will be reported through the Monthly Financial Statements, as a sub component of the Future Projects reserve.

## OPTIONS

The budget surplus is a 'one off' and so should not be allocated to any proposal that has a recurrent (year-on-year) impact. So Council has the following options:

1. Amend the FY23 budget and allocate the surplus funds, to the Future Projects Reserve Fund for allocation following financial planning workshops.
2. Amend the FY23 budget to establish (record) the surplus, and determine the allocation of funds at a future date. This is achievable by simply amending the FY23 budget to account for the surplus in the Net Current Asset Position.
3. Allocate the funds to a service or project (not recommended).

## Option 1 is recommended.

## CONCLUSION

It is proposed that the adopted 2022/23 Annual Budget be amended as per the following report recommendation.

## RECOMMEND

## That Council:

1. Note the report of the year end position (subject to final audit) and the resulting surplus of $\mathbf{\$ 3 , 2 0 2 , 0 0 0}$.
2. Pursuant to section 6.8 of the Local Government Act 1995, amend* the adopted 2022/23 Annual Budget as follows:
a) the net current asset position brought forward to provision for:

Closing Surplus (Net Current Asset Position)
\$16,029,223
Less:

1. Projects Carry Forwards -\$7,223,888
2. Financial Assistance Grant, Paid in Advance -\$2,997,306
3. Performance based Workers Compensation Reserve transfer $-\$ 365,000$
4. Previously Unallocated FY21 Surplus -\$2,273,673

Plus Projects in Progress:
5. Roleystone Theatre - Loan Funds to be drawn down $\$ 38,848$
6. OneCouncil Project - Loan Funds unspent -\$6,204

Year End Surplus $\quad \mathbf{\$ 3 , 2 0 2 , 0 0 0}$
3. Pursuant to section 6.8 of the Local Government Act 1995, make a further amendment* to the adopted 2022/23 Annual Budget to transfer the FY22 surplus to the Future Projects Reserve, as follows:
a. Increase the transfer to the Future Projects Reserve by $\$ \mathbf{3}, \mathbf{2 0 2}, 000$ from $\$ 4,538,529$ to $\$ 7,740,529$.
4. The FY22 surplus to be considered by Council following financial planning and budgeting workshops to discuss options.
5. Notes that the balance of the FY21 and FY22 Surpluses set aside in the Future Projects reserve, including any allocations of those funds as determined by Council, will be reported to Council through the monthly financial statements report.

## ABSOLUTE MAJORITY RESOLUTION REQUIRED

## In Brief:

- A confidential report is presented separately to this Agenda.

## Strategic Implications

4.1.3.7 Maintain a system of internal audit and independent external expert representation on the City's Audit Committee.

## Legal Implications

- Local Government Act 1995

### 7.1A. Audit committee

(1) A local government is to establish an audit committee of 3 or more persons to exercise the powers and discharge the duties conferred on it.
(2) The members of the audit committee of a local government are to be appointed* by the local government and at least 3 of the members, and the majority of the members, are to be council members.

* Absolute majority required.

## Council Policy/Local Law Implications

- City of Armadale Audit Committee Terms of Reference.

## Budget/Financial Implications

Payment to the external member on the City Audit Committee is made in accordance with the City Audit Committee Terms of Reference and is included in the 2022/23 Annual Budget.

## Consultation

Details are outlined in the confidential report.
A Confidential Report is presented separately to this Agenda.

## KEY TERMS AND DESCRIPTIONS FOR THE PERIOD ENDED 31 OCTOBER 2022

## REVENUE

## RATES

All rates levied under the Local Government Act 1995. Includes general, differential, specified area rates, minimum rates, interim rates, back rates, ex-gratia rates, less discounts and concessions offered. Excludes administration fees, interest on instalments, interest on arrears, service charges and sewerage rates.

## OPERATING GRANTS, SUBSIDIES AND CONTRIBUTIONS

Refers to all amounts received as grants, subsidies and contributions that are not non-operating grants.

## NON-OPERATING GRANTS, SUBSIDIES AND CONTRIBUTIONS

Amounts received specifically for the acquisition, construction of new or the upgrading of identifiable non financial assets paid to a local government, irrespective of whether these amounts are received as capital grants, subsidies, contributions or donations.

## REVENUE FROM CONTRACTS WITH CUSTOMERS

Revenue from contracts with customers is recognised when the local government satisfies its performance obligations under the contract.

## FEES AND CHARGES

Revenues (other than service charges) from the use of facilities and charges made for local government services, sewerage rates, rentals, hire charges, fee for service, photocopying charges, licences, sale of goods or information, fines, penalties and administration fees. Local governments may wish to disclose more detail such as rubbish collection fees, rental of property, fines and penalties, and other fees and charges.

## SERVICE CHARGES

Service charges imposed under Division 6 of Part 6 of the Local Government Act 1995. Regulation 54 of the Local Government (Financial Management) Regulations 1996 identifies these as television and radio broadcasting, underground electricity and neighbourhood surveillance services. Exclude rubbish removal charges.

## INTEREST EARNINGS

Interest and other items of a similar nature received from bank and investment accounts, interest on rate instalments, interest on rate arrears and interest on debtors.

OTHER REVENUE / INCOME
Other revenue, which can not be classified under the above headings, includes dividends, discounts, rebates, reimbursements etc.

## PROFIT ON ASSET DISPOSAL

Excess of assets received over the net book value for assets on their disposal.

## NATURE OR TYPE DESCRIPTIONS

## EXPENSES

## EMPLOYEE COSTS

All costs associated with the employment of person such as salaries, wages, allowances, benefits such as vehicle and housing, superannuation, employment expenses, removal expenses, relocation expenses, worker's compensation insurance, training costs, conferences, safety expenses, medical examinations, fringe benefit tax, etc.

## MATERIALS AND CONTRACTS

All expenditures on materials, supplies and contracts not classified under other headings. These include supply of goods and materials, legal expenses, maintenance agreements, communication expenses, advertising expenses, membership, periodicals, publications, hire expenses, rental, postage and freight etc. Local governments may wish to disclose more detail such as contract services, consultancy, information technology, rental or lease expenditures.

## UTILITIES (GAS, ELECTRICITY, WATER)

Expenditures made to the respective agencies for the provision of power, gas or water. Exclude expenditures incurred for the reinstatement of roadwork on behalf of these agencies.

## INSURANCE

All insurance other than worker's compensation and health benefit insurance included as a cost of employment.

## LOSS ON ASSET DISPOSAL

Shortfall between the value of assets received over the net book value for assets on their disposal.

## DEPRECIATION ON NON-CURRENT ASSETS

Depreciation expense raised on all classes of assets.
Excluding Land.

## INTEREST EXPENSES

Interest and other costs of finance paid, including costs of finance for loan debentures, overdraft accommodation and refinancing expenses.

## OTHER EXPENDITURE

Statutory fees, taxes, allowance for impairment of assets, member's fees or State taxes. Donations and subsidies made to community groups.

## KEY INFORMATION

$\Delta \nabla$ Indicates a variance between Year to Date (YTD) Budget and YTD Actual data as per the adopted materiality threshold.
The material variance adopted by Council for the 2022-23 year is \$100,000.
Refer to Note 1 for an explanation of the reasons for the variance.
This statement is to be read in conjunction with the accompanying Financial Statements and Notes.

This Financial Report albeit for the period ending 31 October 2022, should not be read as being the City's final 31 October 2022 financial position as the closing balances for the 30 June 2022 are still to be finalised and audited. Therefore the closing amounts for 30 June 2022 have not been rolled over to 1 July 2022.

## MONTHLY FINANCIAL REPORT FOR THE PERIOD ENDED 31 OCTOBER 2022

#### Abstract

BASIS OF PREPARATION The financial report has been prepared in accordance with Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and interpretations of the Australian Accounting Standards Board, and the Local Government Act 1995 and accompanying Regulations.

The Local Government Act 1995 and accompanying Regulations take precedence over Australian Accounting Standards where they are inconsistent.

The Local Government (Financial Management) Regulations 1996 specify that vested land is a right-of-use asset to be measured at cost, and is considered a zero cost concessionary lease. All right-of-use assets under zero cost concessionary leases are measured at zero cost rather than at fair value, except for vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 which would have required the City to measure any vested improvements at zero cost.

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the financial report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

THE LOCAL GOVERNMENT REPORTING ENTITY All funds through which the City controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears at Note 11 to these financial statements.

## SIGNIFICANT ACCOUNTING POLICES

## CRITICAL ACCOUNTING ESTIMATES

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities not readily apparent from other sources.
Actual results may differ from these estimates.

The balances, transactions and disclosures impacted by accounting estimates are as follows:

- estimation of fair values of certain financial assets
- estimation of fair values of fixed assets shown at fair value - impairment of financial assets

GOODS AND SERVICES TAX
Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position. Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

ROUNDING OFF FIGURES
All figures shown in this statement are rounded to the nearest dollar

## PREPARATION TIMING AND REVIEW

Date prepared: All known transactions up to 22 November 2022

NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY FOR THE PERIOD ENDED 31 OCTOBER 2022

The material variance thresholds are adopted annually by Council as an indicator of whether the actual expenditure or
revenue varies from the year to date Actual materially.
The material variance adopted by Council for the 2022-23 year is $\$ 100,000$.

| Nature or type | Var. \$ | Var. \% | Explanation of positive variances |  | Explanation of negative variances |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

| Closing funding surplus / (deficit) | 6,971,550 | (8.83\%) |  |  |  |  |  |

Note 1
The fixed asset data have not been migrated to OneCouncil yet. Hence, the budgeted loss on disposal of assets cannot be matched with actual loss. The variance will be adjusted once the data migration of fixed assets is completed and should be ready in November accounts.

NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY
FOR THE PERIOD ENDED 31 OCTOBER 2022
(a) Non-cash items excluded from operating activities

The following non-cash revenue and expenditure has been excluded from operating activities
within the Statement of Financial Activity in accordance with Financial Management Regulation 32.

## Adjustments to net current assets

Less: Reserves - restricted cash
Less: Land held for resale
Add: Borrowings
Add: Provisions employee related provisions
Add: Lease liabilities
Add: Movement in Expected Credit Loss on Sundry Receivables
Add: Contract liability held in reserves
Total adjustments to net current assets
(d) Net current assets used in the Statement of Financial Activity Current assets

Cash and cash equivalents
Financial assets at amortised cost
Rates receivables
Receivables
Other current assets
Less: Current liabilities
Payables
Borrowings
Contract liabilities
Lease liabilities
Provisions
Less: Total adjustments to net current assets
Closing funding surplus / (deficit)

## CURRENT AND NON-CURRENT CLASSIFICATION

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each
asset or liability is expected to be settled. Unless otherwise stated assets or liabilities are classified as current if expected
to be settled within the next 12 months, being the Council's operational cycle.

| Description | Classification | Unrestricted | Restricted | $\begin{aligned} & \text { Total } \\ & \text { Cash } \end{aligned}$ | Trust | Institution | Interest Rate | Maturity Date |

| key information |  |  |  |  |  |  |  |  |
| Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks and other short term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Bank overdrafts are reported as short term borrowings in current liabilities in the statement of net current assets. |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |
| The local government classifies financial assets at amortised cost if both of the following criteria are met: - the asset is held within a business model whose objective is to collect the contractual cashflows, and <br> - the contractual terms give rise to cash flows that are solely payments of principal and interest. |  |  |  |  |  |  |  |  |

| \% Collected |  |  |

## KEY INFORMATION

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Trade receivables are recognised at original invoice amount less any allowances for uncollectable amounts (i.e. impairment). The carrying amount of net trade receivables is equivalent to fair value as it is due for settlement within 30 days.

## Classification and subsequent measurement

Receivables which are generally due for settlement within 30 days except rates receivables which are expected to be collected within 12 months are classified as current assets. All other receivables such as, deferred pensioner rates receivable after the end of the reporting period are classified as non-current assets.
Trade and other receivables are held with the objective to collect the contractual cashflows and therefore the City measures them subsequently at amortised cost using the effective interest rate method.

## KEY INFORMATION

Inventory
Inventories are measured at the lower of cost and net realisable value.
Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

## SIGNIFICANT ACCOUNTING POLICIES

Each class of fixed assets within either plant and equipment or infrastructure, is carried at cost or fair value as indicated less, where applicable, any accumulated depreciation and impairment losses.
Assets for which the fair value as at the date of acquisition is under
\$5,000 are not recognised as an asset in accordance with
Financial Management Regulation 17A (5). These assets are
expensed immediately.
Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.
Initial recognition and measurement for assets held at cost
Plant and equipment including furniture and equipment is recognised at cost on acquisition in accordance with Financial Management Regulation 17A. Where acquired at no cost the asset is initially recognise at fair value. Assets held at cost are depreciated and assessed for impairment annually.
Initial recognition and measurement between
mandatory revaluation dates for assets held at fair value
In relation to this initial measurement, cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at zero cost or otherwise significantly less than fair value, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the City includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads.

## KEY INFORMATION

Borrowing costs are recognised as an expense when incurred except where they are directly attributable to the acquisition, construction or
production of a qualifying asset. Where this is the case, they are capitalised as part of the cost of the particular asset until such time
as the asset is substantially ready for its intended use or sale.

Fair values of borrowings are not materially different to their carrying amounts, since the interest payable on those borrowings is either close to
current market rates or the borrowings are of a short term nature. Non-current borrowings fair values are based on discounted cash flows
using a current borrowing rate.

|  |  | 4,288,087 |  |  |  |  | 3,864,899 |  |  |  |

All lease repayments were financed by general purpose revenue.

## KEY INFORMATION

At inception of a contract, the City assesses if the contract contains or is a lease. A contract is or contains a lease, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. At the commencement date, a right of use asset is recognised at cost and lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the City uses its incremental borrowing rate.

All contracts classified as short-term leases (i.e. a lease with a remaining term of 12 months or less) and leases of low value assets are recognised as an operating expense on a straight-line basis over the term of the lease.

## KEY INFORMATION

Provisions
Provisions are recognised when the City has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.
Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

## Employee Related Provisions

## Short-term employee benefits

Provision is made for the City's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.
The City's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the calculation of net current assets.

## Other long-term employee benefits

The City's obligations for employees' annual leave and long service leave entitlements are recognised as employee related provisions in the statement of financial position.

Long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur. The City's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the City does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

## Contract liabilities

An entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer.

## Capital grant/contribution liabilities

Grants to acquire or construct recognisable non-financial assets to identified specifications be constructed to be controlled by the City are recognised as a liability until such time as the City satisfies its obligations under the agreement.

[^0]:    "For details of Councillor Membership on this Committee, please refer to the City's website

    - www.armadale.wa.gov.au/your council/councillors."

[^1]:    ${ }^{1}$ In the adopted FY23 budget, the FY21 Surplus Funds are transferred to the Future Projects Fund for determination by Council. Subsequently, two reports in November on Major Projects allocated funds from this reserve/surplus

[^2]:    ${ }^{2}$ The City opts for performance based premiums with a discount. Further details on the scheme available on request.
