CITY OF ARMADALE
Chief Executive Officer's Report

Mayor and Councillors
City of Armadale

Following is my Report for the period
ended 24 February 2011

1. *TENDER NO. 28/10: TENDER FOR ARMADALE AQUATIC CENTRE REDEVELOPMENT

WARD PALOMINO
FILE REF TEN/28/10
DATE 15 February 2011
REF AB / NC
RESPONSIBLE DCP
MANAGER

In Brief:

- Tender No. 28/10 was recently called for the Armadale Aquatic Centre Redevelopment.
- The Tender consisted of a base cost and an option cost for a zero depth splash pad.
- Four (4) tenders were received by the specified closing time.

Recommend (in brief):

- That Council authorise new expenditure of \$2,600,000 for the Armadale Aquatic Centre Redevelopment and amend the Annual Budget accordingly
- That Council authorise additional loan borrowing proceeds of \$1,600,000 (previously allocated in future years).
- That Council, with Tender 28/10 Armadale Aquatic Centre Redevelopment Stage 1B, accept the tender from Perkins Builders for the base cost of \$2,848,024 (GST inc).
- That Council accept the option cost for the zero depth splash pad and associated works from Perkins Builders for \$1,169,613 (GST inc).

Strategic Implications

2. Enhanced Natural and Built Environments

2.6.1 Provide and maintain Council buildings, facilities and public amenities.

Legislation Implications

Local Government Act 1995 - Section 3.57 (Tenders for providing goods or services) states that a local government, before entering into a contract of a prescribed kind (of which this item would be considered, as it exceeds the ceiling \$ value of works where a tender is not required), a local government is required to invite tenders.

Local Government Act 1995 – Section 6.8 (Expenditure from municipal fund not included in annual budget) states that a local government is not to incur expenditure for an additional purpose unless it is included in the Annual Budget. Whilst there exists an allocation of funds in the current Annual Budget for the Armadale Aquatic Centre Redevelopment, the quantum of the proposed change to that which is included, as well as the inclusion of some additional works, it is deemed prudent that Council seek to formally amend the Budget in accordance with Section 6.8. The decision to amend the Annual Budget must be by an Absolute Majority.

Local Government Act 1995 – Section 6.20 (Power to borrow) provides the power for Council to borrow funds to perform the function of being a local government. Part of this section also permits Council to borrow funds that are not otherwise included in the Annual Budget. Currently, an amount of \$1.43m is included within the Annual Budget for works associated with the Aquatic Centre Redevelopment. This report requests Council to reallocate the proposed loan to be taken in the 2011-2012 financial year to be brought forward to this year, which will also include some additional applicable works for a zero depth splash pad - the details of which are included in this report. Should Council approve the additional loan funds, a one month local public notice is required prior to raising the loan, although it is highly unlikely that the loan will be drawn down during this financial year. This decision must also be by an Absolute Majority.

Council Policy/Local Law Implications

Council Policy ADM 19 – Procurement of Goods or Services

Budget/Financial Implications

The City is required to set an Annual Budget for each financial year. The Council is also required to prepare a Plan for the Future outlining future projects and directions for the City. Within the City's Plan for the Future, the Aquatic Centre Redevelopment has been allocated over a three-year timeframe as per the following –

2010-2011	\$1.43m	
2011-2012	\$2.05m	
2012-2013	<u>\$0.25m</u>	
		\$3.73m

This is the timeframe over which works are anticipated to occur.

In order to fund the above Aquatic Centre Redevelopment, two loans are proposed (\$1.43m in 2010-2011 and \$1.3m in 2011-2012), as well as two grant funding allocations (\$0.75m in 2011-2012 and \$0.25m in 2012-2013) from the Department of Sport and Recreation.

A further \$0.3m is also requested for works that fall outside this allocated schedule of works – the details of which are further outlined within this report.

ARMADALE AQUATIC CENTRE
Revised Conceptual Plan

To take full advantage of economies of scale associated with performing these works, and to ensure works could be programmed effectively, the option of a single tender was called to carry out all stages of work.

In order for the tender to be let as a single tender, this year's Annual Budget must be amended to include the total value of the tender within this year even though it is intended that works will occur as per the funding allocation timeframe outlined above.

Corporate Services

BACKGROUND

Armadale Aquatic Centre was constructed in 1981 and is one of the City's main recreation facilities with attendances averaging 130,000 per year.

The need to upgrade the Centre and provide an indoor year-round facility has been the subject of much discussion over the years and several previous Council reports.

Council has previously discussed timing and financial affordability of a proposed new indoor facility and had determined to undertake some upgrade works to the Aquatic Centre through 2010-2012, with a full redevelopment of the Centre being listed for commencement in 2019-2020 in the City's Plan for the Future.

Consultants were appointed in August 2009 to prepare concept plans for the proposed upgrade works at the Centre. A key aspect of the consultant's brief was that any works must complement plans for the new indoor facility.

Council was presented with a report in April 2010 that outlined the upgrade works that were to be undertaken during the 2010 "off" season and planned works for the 2011 "off season", as well as the status of planning for the new indoor facility (CS33/4/10).

A tour of the Craigie Leisure Centre was organised for Councillors and Officers in December 2009 to review indoor facilities as well as a review of a zero depth splash pad. Pre-tender cost estimates suggested that the scope of works detailed below as 'base works' would come in below the budget allocation, prompting the possibility of bringing forward the construction of a new children's pool (scheduled as part of the major Aquatic Centre upgrade commencing 2019). As a result, an option cost for a zero depth splash pad was included in the tender documentation.

Following the Craigie Leisure Centre tour, a request was made to review the Aquatic Centre Master Plan in order to ensure that, by bringing forward the installation of a zero depth splash pad, it would not adversely impact the final design of the indoor facility. A scaled rendition of the Master Plan, including the proposed location for a zero depth splash pad is presented in this report. It should be noted that provision has been made in the Master Plan design to allow the indoor 25m pool to be orientated either north/south or east/west.

DETAILS OF PROPOSAL

The Armadale Aquatic Centre Redevelopment project is predominantly for the construction of a new plant room and water treatment system for the existing 50m and 25m swimming pools together with the children's pool. Further upgrading of the facility is also required as part of the "base bid" with an option for the replacement of the children's pool with a zero depth splash pad.

The base works included in this tender are for;

- Demolition of the existing "cave" and neighbouring structures
- Site clearance as required
- Earthworks in the cave area to suit new building, including excavation for balancing and backwash tanks beneath the building
- Upgrade and extension of the existing access road
- New treatment plant building and tanks
- Installation of the complete treatment plant including all mechanical and electrical equipment in order for this to be a fully compliant treatment system for the existing pools
- Replacement of all swimming pool pipework
- Resurfacing concrete flooring around the 50m and 25m pools together with the concrete concourse area
- Removal of mechanical and electrical equipment within the existing plant room and convert to a storage area

The optional works included in this tender are for;

- Demolition and removal of the existing children's pool and tail pond
- Associated earthworks
- Construction of a zero depth splash pad and shallow water pool
- Installation of water features and treatment system
- Landscaping

From the tenders received, the base works cost is lower than the pre-tender estimate, resulting in a less-than-expected shortfall to incorporate the zero depth splash pad. As a result, an additional \$300,000 is sought in order to deliver this facility ahead of the anticipated 2019-2020 schedule.

NEW CONTRACT INFORMATION

Table 1: New Contract Information

Contract Type	Lump Sum
Contract Duration	25 Weeks
Commencement Date	14 March 2011
Expiry Date	5 September 2011
Extension Permitted	No
Rise And Fall Included	No

SELECTION CRITERIA

The selection criteria and weightings for the evaluation of the tender are as follows.

Table 2: Selection Criteria

ITEM No.	DESCRIPTION	WEIGHTING
1.	Relevant Experience	15%
2.	Key personnel skills and experience	15%
3.	Capacity to deliver proposed service	15%
4.	Management Plan	15%
5.	Tender Price	40%
	TOTAL	100%

Tenders Received

The Tender closed at 2.00pm on 2nd February 2011.

Tenders were received from Perkins Builders, Laneway Construction, Midland Constructions Pty Ltd, and CPD Group Pty Ltd.

Tender Evaluation

All four tender submissions addressed the selection criteria. The tender submission from Perkins Builders was able to demonstrate extensive relevant experience across a variety of similar projects. All tenderers provided details on the skills and experience of high level personnel, however the submission from Perkins Builders also demonstrated considerable experience at site management level. In terms of demonstrated understanding of the project (criterion 4.), Perkins Builders comprehensively addressed all matters as requested in the tender documentation including demonstration of environmental factors, as well as specific provisioning of post-implementation matters.

CONCLUSION

Due to the limited accessibility to the Aquatic Centre (Aquatic Centre shut-down April to September), and to minimise the impact on the general public, it is important that the 2011 works are commenced at the earliest opportunity.

In order to let the tender, as advertised (and that which is the most cost-advantageous to Council), legislative matters, as noted earlier in this report, will require Council to reallocate from future years those funds allocated in the 2011-2012 and 2012-2013 financial years, and to amend the current Annual Budget accordingly.

In addition to the required legislated amendment to this year's Annual Budget, the Plan for the Future will also require amendment, but this will occur in the coming months as part of the 2011-2012 Annual Budget process.

Of note is the \$1m of grant funding that is outside Council's control that relates to this project. The Minister for Sport and Recreation has confirmed the approved funding for the project, stating "...I

have approved funding from the CSRFF for ... \$1,000,000 to assist with the upgrade of facilities at the Armadale Aquatic Centre to be claimed in the 2011/12 and 2012/13 financial years..." With this confirmation, Council can be confident that these funds will indeed be available in the stated future years.

Based on the information provided in each of the submitted Tenders, Perkins Builders ranked highest across each of the qualitative criteria, and was within 1% of the lowest priced tender. As a result of this evaluation, the tender evaluation panel are of the view that the Tender from Perkins Builders (including the Option Cost) offers the greatest value for money for the City.

RECOMMEND

That Council:

- 1. Pursuant to Section 6.8 of the Local Government Act 1995,**
 - a. Authorise the following additional expenditure -**

- Aquatic Centre Redevelopment	\$2,600,000
---------------------------------------	--------------------
 - b. Amend* the 2010-2011 Annual Budget as follows -**

Expense	
Aquatic Centre Redevelopment increase by	\$2,600,000
Revenue	
Aquatic Centre Loan Proceeds increase by	\$1,600,000
CSRFF Grant Funds increase by	\$1,000,000
- For the purpose of completion of redevelopment works at the Armadale Aquatic Centre.**
- 2. Pursuant to Section 6.20 of the Local Government Act 1995, authorise* an additional 20 year loan being for an amount of \$1,600,000 for the purpose of providing additional funds for the Armadale Aquatic Centre Redevelopment.**
- 3. Pursuant to Section 3.57 of the Local Government Act 1995, and in respect to Tender 28/10 – Armadale Aquatic Centre Redevelopment,**
 - a. Accept the tender received from Perkins Builders in accordance with their submitted tender and the City's contract documentation (value \$2,848,024 (GST inc)) being for –**
 - Demolition of the existing “cave” and neighbouring structures**
 - Site clearance as required**
 - Earthworks in the cave area to suit new building, including excavation for balancing and backwash tanks beneath the building**
 - Upgrade and extension of the existing access road**
 - New treatment plant building and tanks**

- **Installation of the complete treatment plant including all mechanical and electrical equipment in order for this to be a fully compliant treatment system for the existing pools**
 - **Replacement of all swimming pool pipework**
 - **Resurfacing concrete flooring around the 50m and 25m pools together with the concrete concourse area**
 - **Removal of mechanical and electrical equipment within the existing plant room and convert to a storage area**
- b. **Accept the option tender from Perkins Builders in accordance with their submitted tender and the City's contract documentation (value \$1,169,613 (GST inc) being for –**
- **Demolition and removal of the existing children's pool and tail pond**
 - **Associated earthworks**
 - **Construction of a zero depth splash pad and shallow water pool**
 - **Installation of water features and treatment system**
 - **Landscaping**

Parts 1 and 2 of the recommendation require an Absolute Majority decision.

Motion Carried/Lost (.....)

2. **ROLEYSTONE/KELMSCOTT BUSHFIRE – GRANTING OF FEE CONCESSIONS**

WARD Jarrah/River
FILE REF: ES/FM/10
DATE 24 Feb 2011
REF AFM
RESPONSIBLE CEO
MANAGER

In Brief:

This Report seeks Council's approval to grant a 100% concession for all those scheduled fees and charges relating to for example building licenses, planning approvals, copies of plans and verge deposits for properties damaged by the Roleystone-Kelmscott Bushfire. This concession is to provide a means of assisting those persons whose properties have been totally or partially destroyed/damaged.

Strategic Implications

1. Community Wellbeing
 - 1.6.1 Support the community in emergency and fire management planning, response and recovery
4. Good Governance and an Effective Organisation
 - 4.6.1 Provide financial services to support cost effective Council operations and service delivery

Legislation Implications

The relevant section of the *Local Government Act 1995* is as follows:

6.12. Power to defer, grant discounts, waive or write off debts

- (1) Subject to subsection (2) and any other written law, a local government may —
 - (a) when adopting the annual budget, grant* a discount or other incentive for the early payment of any amount of money;
 - (b) waive or grant concessions in relation to any amount of money; or
 - (c) write off any amount of money,
which is owed to the local government.

* *Absolute majority required.*

- (2) Subsection (1)(a) and (b) do not apply to an amount of money owing in respect of rates and service charges.
- (3) The grant of a concession under subsection (1)(b) may be subject to any conditions determined by the local government.

Budget/Financial Implications

Given that there was no expectation of such revenue, no provision was made in the 2010-11 Budget as such and hence there is no loss of "budgeted" revenue.

Consultation

- Mayor, Cr L Reynolds
- Executive Director Development Services and Executive Director Corporate Services

BACKGROUND

On February 6 2011 the City faced a devastating bushfire in the Roleystone/Kelmscott area with a number of properties either totally or partially destroyed.

As a result of the recovery process many initiatives are being undertaken to support the affected community in order to expedite the rebuilding of their homes.

DETAILS OF PROPOSAL

It is proposed that Council grant a 100% concession to the various application fees for the Bushfire victims. These include Building Licence, Planning approval, payment for searches and copies of plans and Verge deposits.

The City is seeking from the State Government a similar relaxation of similar fees and charges paid to the State .

Building Licence applications for new residences require the payment of two fees to the State:

- BRB Builders registration Board of \$40.50 per application; and
- BCITF which is 0.2% of the construction value declared on application. For a typical house construction value of \$200,000 (including earthworks) the BCITF Levy would be \$400 per application.

RECOMMEND

That Council,

- 1. pursuant to section 6.12(1)(b) of the *Local Government Act 1995*, grant a 100% concession for all those fees and charges in the City's Schedule of Fees and Charges in the 2010-11 Annual Budget relating to for example building licenses, planning approvals, copies of plans and verge deposits as arising from, and as a consequence of, the Roleystone-Kelmscott Bushfire, which occurred on the 6 February 2011; and**
- 2. notes the likelihood of**
 - (a) a further Report that will seek to waive and/or grant concessions for various scheduled City waste tipping fees and charges associated with the demolition and debris removal works arising from the Roleystone/Kelmscott Bushfire as a City recovery initiative to assist residents complementing the likely State Government initiative to fully fund the necessary demolition and debris removal works on properties damaged by the bushfire.**
 - (b) a further Report that will seek to waive and/or grant concessions for various other fees and charges, included within the 2010-2011 Annual Budget, as part of the City's recovery initiative to assist residents impacted by the bushfire.**

COMMENT

This brief report presents a summary of actions following the Roleystone/Kelmscott Bushfire Emergency of 6 February 2011. A more comprehensive report will be forthcoming at some point in the future.

The table attached outlines the actions taken from the time that the fire was reported to the time evacuees were allowed to return home on Wednesday 9th February 2011.

Whilst the table outlines the general response to Bushfire, the City has a 'Local Emergency Management Arrangements' plan which is required under the Emergency Management Act (2005). In accordance with the Act the Arrangements require the City to form a Recovery Committee and nominate a Recovery Co-ordinator. Councillors will note from the table that the first meeting of the Recovery Committee was held on Monday, 7th February 2011. When the bushfire emergency was still under the management of FESA. The handover from FESA to the City occurred on Thursday, 10th February 2011.

The Recovery Committee's purpose is to coordinate and support the local management of the recovery process within the community. The initial membership of the Recovery Committee included the Mayor, CEO and representatives from the City, FESA, WA Police, Department of Child Protection, Main Roads, Western Power, Alinta Gas, Water Corporation, Department of Health, Telstra, Red Cross, Department for Education and the Catholic Education Office. The membership has fluctuated since the time of the Bushfire dependent on the stage of the response / recovery process. The current core membership is as follows:

NAME	POSITION	ROLE
Linton Reynolds	Mayor	Chairperson
Ray Tame	CEO	Deputy Chairperson
Yvonne Coyne	Exec Director Community Services	Recovery Co-ordinator
Tony Maxwell	Exec Director Corporate Services	Finance
Ian MacRae	Exec Director Development Services	Building / Health
Andrew Bruce	Exec Director Technical Services	Infrastructure
Neil Kegie	Exec Manager Community Services	Welfare / Community
Michelle McGinity	Communications Manager	Communications / Public Relations
David Higgins	Building Liaison Officer	
Paul Lanternier	Manager Parks and Gardens	
Stephanie Keating	District Director - DCP	
Cathy Lamont	Armadale Manager - Centrelink	

Representatives from government and non-government agencies have attended the Recovery Committee meetings and this will continue dependent on the issues being addressed.

The significant issues and priorities to date have been:

- Establishment of the Armadale Arena as an Evacuation Centre and then transition to Recovery Centre.
- Liaison and co-ordination of traffic management, vegetation clearance and waste disposal.
- Development and distribution of Community Updates – 11 have been issued.
- All information being available on the City's website.
- Determining and verifying destroyed and damaged properties.
- Inspections of damaged properties by a team including representatives from the City's Building, Health and Parks Services and the Water Corporation.
- Emergency Financial Assistance – distributed by Centrelink, DCP and the City, dependent on source of funds.
- Negotiation of State assistance for Demolition and Clearance Costs for all affected properties.
- Negotiation with State on waiver of all fees associated with rebuilding.
- Co-ordination of Volunteer Clean up days.
- Receipt, recording of over 770 offers of donations, services and assistance. This is in addition to the initial offers recorded by Volunteering WA which is believed to be in excess of 350.
- Liaison and co-ordination of 7.20 ABC Broadcasting events.
- Liaison and co-ordination of 6PR "Thank You" event.
- Considerable response to media enquiries.
- Considerable response to community enquiries and requests for information.
- Residents' Information meetings and briefings.

- Appointment of a Project Manager to facilitate the demolition / clearance process in anticipation of the State/Federal government confirming funding.
- Liaising offers of assistance with individuals needs.
- Transition from DCP to CoA as lead Community Welfare agency.

CONCLUSION

The Roleystone / Kelmscott Bushfire has been the most significant and devastating event that the City has ever had to contend with. The Recovery Process will continue for quite some time and will vary depending on what issues are encountered by both the community and the City.

The immediate priority for the Recovery Committee is to continue to negotiate with the Federal / State Government for the funding of the demolition and clearance of destroyed and damaged properties.

This brief report and timeline of events places on record actions emanating from the Bushfire Emergency of 6 February 2011.

RECOMMEND

That Council note the City's actions to date in response to the Roleystone / Kelmscott Bushfire of 6th February 2011.
