

Know the signs of COVID-19

SORE THROAT

FEVER

COUGHING

SHORTNESS OF BREATH

Have you recently been overseas, or been in contact with someone who has returned from overseas?

Are you feeling unwell with flu-like symptoms?

The City of Armadale asks that you immediately seek medical advice and do not attend our facilities.

These guidelines are in place to ensure that we can offer the safest possible environment for our community. We will continue to monitor the situation and update the above advice as guided by the Department of Health.

Social Distancing

- No non-essential gatherings of more than 500 people outside or more than 100 people inside.
- All non-essential indoor gatherings of less than 100 people must have no more than one person per 4sqm. All Australians should expect their local businesses to be following this rule.
- Where possible, keep 1.5 metres between yourself and others
- Avoid non-essential travel
- Restrictions on entering aged care homes to protect older Australians
- Leaders acknowledged that these new restrictions will change the way we live and expressed deep regret for those business owners and employees who will be impacted. The goal is to reduce the spread of the virus, to flatten the curve and to save the lives of fellow Australians.
- State Premiers and Chief Ministers agreed they would give effect to these restrictions through their own legislative processes and make announcements accordingly.
- Premiers and Chief Ministers will consider further Stage 2 restrictions if social distancing measures are not adhered to.
