

Binomial name	Common Name	Description
<i>Acacia dentifera</i>	Tooth-bearing acacia	Erect open shrub to 2m high with bright yellow Flowers in spring. Shade tolerant wetland plant.
<i>Acacia stenoptera</i>	Narrow-winged wattle	A low bushy shrub to 1m high with long thin phyllodes and bright yellow ball flowers in winter. A plant that is bird and bee attracting.
<i>Allocasuarina huegeliana</i>	Rock sheoak	Tree to 7 m high. (Dioecious- male and female plants). Commonly found on granite outcrops and on road verges. Bird and bee attracting. Resprouts after fire.
<i>Anigozanthos manglesii</i>	Red and green kangaroo paw	Herbaceous perennial to 1m high by 1m wide. Showy red & green flowers during Spring & Summer. WA floral emblem that is bird attracting and shade tolerant.
<i>Anigozanthos viridis</i>	Green kangaroo paw	Herbaceous perennial to 0.5m with showy green flowers August to October. Bird attracting and shade tolerant.
<i>Banksia attenuata</i>	Candlestick banksia	Small branching tree 6-8 m high by 4 m wide. Large yellow "candle stick" flowers. Bird, bee and butterfly attracting. Bush tucker plant and dieback susceptible.
<i>Banksia menziesii</i>	Firewood banksia	Tree to 6m high by 3m wide, red flowers during autumn and winter. Bush tucker plant. Bird, bee and butterfly attracting. Dieback susceptible.
<i>Banksia nivea</i>	Honeypot dryandra	Prostrate, shrub, to 0.3 m high with attractive long dark green toothed leaves. Winter flowers of yellow-brown/cream-pink are hidden in the foliage.
<i>Beaufortia elegans</i>	Elegant beaufortia	Attractive erect shrub to 1m with pink to purple flowers in a globular head. Occurs in sand over clay and flowers late spring and summer

Binomial name	Common Name	Description
<i>Beaufortia purpurea</i>	Purple beaufortia	Erect or spreading shrub, 0.3-1.5 m high. Fl. red-purple, Oct to Dec or Jan to Feb. Lateritic or granitic soils. Rocky slopes.
<i>Billardiera fusiformis</i>	Australian bluebell	Sturdy, climbing perennial with attractive blue flowers from October to February.
<i>Bossiaea eriocarpa</i>	Common brown pea	Small spreading shrub to 0.5m. Brown and yellow flowers January to April
<i>Callistemon phoeniceus</i>	Scarlet bottlebrush	Shrub to 1.5m, open habit, red bottlebrush flowers in spring. Bird and bee attracting.
<i>Calothamnus hirsutus</i>	Calothamnus	Erect dense shrub to 1m, flowers red from September to December. Grows in winter wet depressions. Showy bird and bee attracting plant.
<i>Calothamnus rupestris</i>	Cliff net bush	Erect or spreading shrub to 3m high by 2.5m wide, with blood red flowers during summer. Bird and bee attracting plant.
<i>Calytrix fraseri</i>	Pink summer calytrix	Shrub, 0.2-1(-2) m high. Fl. pink/pink & purple & yellow, Nov to Dec or Jan to Aug. White, grey or yellow sand. Sandplains, coastal dunes, rocky granite outcrops.
<i>Carpobrotus virescens</i>	Pigface	Low spreading succulent up to 1 m high and 3 m wide. Bright purple-pink daisy like flowers Jul to Jan. Bush tucker and butterfly attracting plant.
<i>Chorizema cordatum</i>	Flame pea	Small shrub to 1 metre high. Bright Orange-yellow & pink to red pea flowers in winter and spring. Bird attracting.

Binomial name	Common Name	Description
<i>Conostylis candicans</i>	Grey cottonhead	Small clumping herb to 0.5m high. Globular yellow flower heads August to September. Shade tolerant and hardy strap leaved groundcovers.
<i>Conostylis juncea</i>	Dwarf cottonhead	Rhizomatous, tufted perennial, grass like herb 0.1-0.4m, relative of the Kangaroo Paws. Yellow/green globular flowers Jul-Sept. Shade tolerant and hardy strap leaved groundcovers.
<i>Corymbia calophylla</i>	Marri	A tall tree to 20m high on the coastal plain and 40 m in the Darling Range. Abundant cream flowers during summer ensure a food source for many animals. Bird, bee and butterfly attracting plant. Carnaby Cockatoo food plant.
<i>Daviesia cordata</i>	Bookleaf	Erect, slender shrub, 0.5-2 m high. Fl. yellow/orange & red/brown, Jul to Dec or Jan. Lateritic or granitic soils. Undulating plains, hills, ridges.
<i>Eremophila glabra upright</i>	Tar bush	Shrub, 0.1-3 m high. Fl. green-yellow-orange-red-brown, Mar to Dec. Sand to clay soils, sometimes saline, stony loam, limestone. Winter-wet depressions, sandplains & dunes.
<i>Eucalyptus caesia ssp. Caesia</i>	Caesia	Mallee, 1.8-14 m high, bark 'minni-ritchi' peels in small curly flakes but does not detach. Fl. pink-red, May to Sep. Loam. Granite outcrops.
<i>Gastrolobium spinosum</i>	Prickly poison	Low and bushy to erect and open, prickly shrub, to 3.5 m high. Fl. yellow/orange/red, May or Aug to Dec or Jan. Sandy and clayey soils, gravel, laterite, granite. Stony slopes, outcrops, breakaways.
<i>Gompholobium tomentosum</i>	Yellow pea	Small spreading shrub to 0.3m high, yellow pea flowers in spring. Bee attracting and shade tolerant.
<i>Grevillea crithmifolia upright</i>	Grevillea	Spreading shrub to 1.5m high by 3m wide, white flowers from July to September. Bird, bee and butterfly attracting. Some shade tolerance and dieback susceptible.

Binomial name	Common Name	Description
<i>Guichenotia macrantha</i>	Large-flowered guichenotia	Erect, spindly or straggling shrub, 0.2-1.5 m high. Fl. blue-purple/pink, May to Sep. Sandy soils over granite or sandstone or limestone. Sandplains, lateritic breakaways, coastal cliffs, hills.
<i>Hakea lissocarpha</i>	Honey bush	Medium prickly shrub to 1.5m high with scented white flowers in winter. Bird, bee and butterfly attracting
<i>Hakea petiolaris</i>	Sea-urchin hakea	Erect shrub to 3m high by 2m wide, purple and cream flowers in autumn and winter. Shade tolerant. Bird and bee attracting plant.
<i>Hakea trifurcata</i>	Two-leaf hakea	Medium rounded shrub 1.5-2m high with white/cream-pink flowers in winter to spring. Bird and bee attracting.
<i>Hakea undulata</i>	Wavy-leaved hakea	Erect shrub 2m high, white flowers winter to spring. Shade tolerant and a bird and bee attracting plant.
<i>Hakea varia</i>	Variableveaved hakea	Erect to spreading shrub to 2m high & 2m wide. White flowers in winter. Wetland plant that is shade tolerant and bird and bee attracting.
<i>Hemiandra pungens</i>	Snake bush	Upright small shrub with mauve/purple or white flowers through spring and summer. Shade tolerant butterfly attracting plant. Dieback resistant resprouter.
<i>Hibbertia subvaginata</i>	Hibbertia	Erect, occasionally prostrate, spreading or straggling shrub, 0.15-1.2 m high. Fl. yellow, Jul to Dec. White, grey or yellow sand, granite, laterite. Sandplains, sand dunes, floodplains, outcrops.
<i>Hovea pungens</i>	Devil's pins	Small erect, shrub, 1.2m high with devilishly sharp needle leaves. Striking blue/purple pea flowers in winter/spring.
<i>Hypocalymma angustifolium</i>	White myrtle	Small compact shrub to 1 metre high Masses of white to pink flowers wax flowers all down the stems during winter and spring. Bird and bee attracting plant and shade tolerant.

Binomial name	Common Name	Description
<i>Isopogon dubius</i>	Pincushion coneflower	Shrub to 1m high with globular heads. Flowers purple from July to October.
<i>Jacksonia sericea</i>	Waldjumi	Low spreading shrub to 0.3m forming a mound. Orange pea flowers in summer. Bird and bee attracting.
<i>Kennedia prostrata</i>	Running postman	Groundcovering plant with large leaves and bright scarlet pea flowers in spring. Bird and bee attracting, shade tolerant.
<i>Kunzea glabrescens</i>	Spearwood	Large shrub to 3m high by 2m wide, yellow flowers during spring. Shade tolerant bird and bee attracting plant. Dieback susceptible resprouter.
<i>Lechenaultia biloba</i>	Blue leschenaultia	Diffuse, ascending shrub, 0.15-1(-1.6) m high, with distinctive large corolla wings. Fl. blue, Jul to Dec. Lateritic or granitic soils. Hills, outcrops, flats.
<i>Leptospermum erubescens</i>	Roadside tea tree	Large shrub to 3 metres high. Flower sprays are white to pale pink and wax type in August to October. A resprouter that is shade tolerant.
<i>Melaleuca scabra</i>	Rough honey myrtle	Spreading shrub to 0.8m high, with mauve flowers in summer. Bird and bee attracting. Shade tolerant resprouter.
<i>Patersonia occidentalis</i>	Western patersonia	A tidy perennial herb with strap leaves 0.3 to 0.6m high. Stunning violet to blue Iris flowers during spring and summer. Shade tolerant and dieback susceptible.
<i>Pimelea rosea</i>	Rose banjine	Erect shrub, 0.3-1 m high. Fl. pink/red-purple, Jul to Dec. Sand, sandy clay, gravel. Coastal sand dunes & plains, limestone or granitic rises.

Binomial name	Common Name	Description
<i>Scaevola thesioides</i>	Scaevola	Low growing shrub to 0.6m. Blue flowers spring and summer. Coastal.
<i>Sphaerolobium medium</i>	Globe pea	Small erect leafless shrub to 0.5m high, yellow/orange pea flowers October to November. Bee attracting, shade tolerant resprouter.
<i>Verticordia plumosa</i>	Plumed feather flower	Shrub, 0.2-1.5 m high, with typically pink flowers July to December. Typically grows on sandy or clayey soils, gravel, or granite.
