

ARMADALE ALIVE

Get onboard with the Habitat Links program which aims to assist in revegetating bushland and watercourses on private land within the City of Armadale.

Landowners with natural areas of bush, watercourses or wetlands on their land may be eligible to receive free native seedlings and technical advice to help with revegetation, wildlife habitat creation, weed and feral animal management, erosion control and environmental monitoring.

To register your interest in the Habitat Links program for 2022 or further information email habitatlinks@armadale.wa.gov.au or call **9394 5000**.

FREE E-WASTE DROP OFF DAY

Saturday 29 January 2022 | 9.30am to 2.30pm
Kelmscott Hall, 60 River Road

Recycle all your old electronic equipment in one convenient location – drive in and drop off your items.

Did you know majority of the components in your computer or television can be fully recycled? E-waste is responsible for 70% of the toxic chemicals such as lead, cadmium and mercury found in landfill. Electronic waste is growing three times the rate of any other waste stream - together we can make a difference and help reduce e-waste to landfill.

Residential quantities only accepted and ID required.

For a full list of what is accepted and other details visit armadale.wa.gov.au
